

Indian Institute of Information Technology (IIIT) Chittoor, Sricity
Questionnaire for BTP-Progress Evaluation

Wednesdays, 3:30 – 5pm

Spring 2016

Project Name: Multi-Platform Mobile App for Emergency Scene Communication

Instructor : Dr.Uma Garimella

1. Describe what you have done in the last 3 weeks.

- 1) Learning Process: We made 4x4 Tic-Tac-Toe as our first assignment to be familiar with android.
- 2) We have done Login and Signup (Version-1). In this application if person registers it will store in application itself means super user cannot see who registered.
- 3) We have done Login and Signup (Version-2). If person register then it stores in server. The registered person should Login.
- 4) We have done our application which captures the image and save in internal memory. \
- 5) We have done our application which shows latitude and longitude of current location.

2. How many times did you meet / talk with your faculty / guide?

We have done five meetings with our instructor.

3. How many papers / articles / technical materials have you read in the last 3 weeks?

We have read some technical materials provided by our instructor and also some android development tutorials.

4. Provide a brief summary of your learning?

We have learnt how to connect two different features of an application in a single app and also how to Store the users information in database.

5. What development / programming / practical activity did you do in the last 3 weeks.

We have used XML,JAVA Programming as our technical languages for our project.

6. How close/far are you from the milestone set by your Guide?

Since android developing is completely new fields for us so, we are following instructions and completing the task within the time set by our instructors.

7. What specific challenges are you facing/you faced in the last 3 weeks?

We are facing a problem in storing the collected information eg., image in the database.

8. Propose your plan for the next 3 weeks; as agreed with your supervisor. It would be verified in the next round (Q1).

We have got three tasks for next meeting from our instructors

- 1) First thing is that to upload the collected data on a server.
- 2) Second is that we need to write some description using keypad and we should send to server.
- 3) Third is that we need to write some description using hand and we should send to server
